

Single stage in line cartridge vacuum generators mod. ELMR

The ELMR in-line vacuum generator has a considerable flow rate despite having very small dimensions and weight, making it particularly suitable for installations that require minimal space. Since the air aspiration and exhaust are located on the same line and with the same direction, it is not affected by the possible intake of small quantities of dust or impurities. Only the cartridge contained inside the body is also available on request.

Art. ELMR

Model	Working pressure												Maximum vacuum level in - kPa	Maximum vacuum level in - kPa
	1 BAR			2 BAR			3 BAR			4 BAR				
	vacuum level in -kPa	vacuum flow NI/min	air consupction NI/min	vacuum level in -kPa	vacuum flow NI/min	air consupction NI/min	vacuum level in -kPa	vacuum flow NI/min	air consupction NI/min	vacuum level in -kPa	vacuum flow NI/min	air consupction NI/min		
ELMR	27.80	56.60	70.80	49.00	69.10	93.30	60.00	77.50	137.50	64.50	80.80	166.60	64.50	80.80
