

3 way bistable vacuum electrovalves, servo-assisted by compressed air

The ELVUB solenoid valve is equipped with a bistable coil which, thanks to an electric impulse, changes position and maintains it without the need for continuous power.

The connection is obtained with a DIN FASTON 43650-C connector.

- Valve body: anodized aluminium
- Spring: harmonic steel
- Gasket: Viton
- Absorbed power: 2,5 Watt
- Voltage: 24V. DC - 100% ED
- Voltage tolerance: $\pm 10\%$
- Coil tolerance: $\pm 5\%$
- Working temperature of coil: $-10^{\circ} + 50^{\circ} \text{ C.}$
- Fluid temperature: $-10^{\circ} + 50^{\circ} \text{ C.}$
- Degree of protection of connector: IP 65
