Ventose a soffietto serie VES 25

Le ventose della serie VES sono studiate per essere la soluzione migliore alla movimentazione di sacchetti in plastica e in altri materiali.

Sono composte da due parti separate montate tra loro. Il labbro morbido in silicone garantisce alla ventosa un'ottima presa sulle superfici deformabili, mentre il corpo a più soffietti di maggior durezza garantisce un'ottima resistenza alle sollecitazioni.

Nei supporti disponibili, vi è la possibilità d'integrare un filtro a rete in acciaio INOX e la valvola autoescludente per il controllo flusso del vuoto.
